Property Description

The Villa Infante is a new and distinctive residential development ready for occupancy, located in the heart of Estrela, between Lapa and Tapada das Necessidades.

Designed by architect Frederico Valsassina, it combines the rehabilitation of an old manor house with the creation of a new wing of contemporary architecture, achieving a perfect balance between tradition and modernity.

The units, ranging from T1 to T4 types, are notable for their brightness, privacy, and a harmonious relationship between interiors and exteriors, including, depending on the unit, balconies, spacious terraces, and, in some cases, river views.

Every detail has been carefully considered, with excellent finishes, storage rooms, covered parking, and a range of amenities including gardens, a gym, and concierge service. Your exclusive retreat in one of the most noble and authentic areas of Lisbon.
